LEGAL MIGRATION AND MOBILITY

PROMOTING LEGAL MIGRATION CHANNELS

In 2017, the bill n° 7188\(^1\) was introduced in the Parliament, which aims to facilitate intra-European mobility of third-country national researchers and students during their stay in the EU.

According to the bill, **students** who follow an EU or multilateral programme that includes mobility measures will no longer have to introduce a new application for authorisation of stay, but must notify the authorities of the first Member State and the ministry in charge of Immigration. The bill also intended to extend the permitted working hours for students from 10 to 15 hours per week, and aimed to amend the provisions regulating the authorisation of stay of interns.

The procedures were also simplified for **researchers**, for whom short-term mobility (up to a maximum of 180 out of 360 days) and long-term mobility (of between 180 and 360 days) was foreseen in the bill.

Furthermore, the bill proposed that students and researchers can be authorised to stay in Luxembourg for a duration of **nine months maximum** following

KEY POINTS

A new bill was put forward to facilitate and simplify the procedures for intra-EU mobility of third-country national students and researchers and incentivise their retention after completion of their studies or research.

The newly introduced compulsory Guided Integration Trail aims to empower and support applicants and beneficiaries of international protection.

A semi-open return structure managed by the Directorate of the Detention Centre was established in the City of Luxembourg for the accommodation of people whose transfer under the Dublin Regulation is pending.

their studies or research, in view of finding employment or establishing a business.

An agreement between Cape Verde and Luxembourg on concerted management of the migratory flow and solidary development\(^2\) put in place a simplified access to short-term visas with multiple entries for a range of professions. Thus, it simplified the procedure for obtaining a ‘salaried worker’ authorisation of stay for a number highly-qualified or highly-specific professions (limited to 50 such authorisations per year). It foresaw

---

\(^1\) Bill n°7188 intending to modify the amended Law of 29 August 2008 on free movement of people and immigration and aims to transpose Directive 2016/801/EU of the European Parliament and the Council of 11 May 2016 on the conditions of entry and residence of third-country nationals for the purposes of research, studies, training, voluntary service, pupil exchange schemes or educational projects and au pairing.

\(^2\) Law of 20 July 2017 approving the agreement between the State of the Grand Duchy of Luxembourg and the Republic of Cape Verde on the concerted management of migratory flows and solidary development, made in Luxembourg on 13 October 2015. Memorial A n°672 of 27th July 2017
that that students from both countries can stay in the other country for two years to gain a first professional experience. In addition, it regulated the exchange of young professionals who wish to gain a first work experience in either state (limited to ten per year).

In 2017, Luxembourg also developed initiatives to provide information to migrants on legal migration channels. For instance, since November, the website\(^3\) that provides all essential administrative and procedural information to migrants considering a move to Luxembourg, is entirely available in English.

**ECONOMIC MIGRATION**

- introduced a new authorisation of stay for investors;
- created a mechanism for continuation of activity, allowing registered entities situated in a third country to continue their activities in Luxembourg under certain circumstances and grant a ‘salaried worker’ residence permit to third-country national workers affected;
- increased the period of validity of the EU Blue Card residence permit from two to four years;
- elaborated the conditions under which a third-country national corporate officer has the right to apply for a European Blue Card residence permit, a ‘salaried worker’ or ‘independent worker’ authorisation of stay (depending on the corporate officer’s relationship with the employer).

**FAMILY REUNIFICATION**

The above-mentioned Law of 8 March 2017 removed the one-year waiting period that previously applied to third-country national sponsors wishing to apply for family reunification. The sponsor’s spouse, registered partner or minor child can now join the sponsor directly after his/her residence permit has been granted. However, the one-year condition remained for the descendants of the sponsors.

Moreover, as for researchers staying in Luxembourg in the context of short- or long-term mobility, the bill n° 7188 foresaw provisions to regulate the family reunification with his/her nuclear family.

**MANAGING MIGRATION AND MOBILITY**

No relevant changes were reported in 2017.

**INTERNATIONAL PROTECTION INCLUDING ASYLUM**

In 2017, 2 321 applications for international protection were registered in Luxembourg. Out of the 3 186 decisions on asylum applications that were taken in 2017, 1 206 were positive.

In February 2017, an ‘ultra-accelerated procedure’ was put in place for international protection applicants coming from safe countries of origin (principally nationals of Western Balkan states). The list of safe third countries of origin was amended, and now also includes Georgia.

A semi-open return structure (SHUK) managed by the Directorate of the Detention Centre was established in the City of Luxembourg for the accommodation of people whose transfer under the Dublin Regulation was pending. The assignment to the SHUK being a measure of home custody, it is considered an alternative to detention.

By December 2017, Luxembourg had fulfilled its relocation commitments from Italy and Greece under the EU relocation scheme adopted in September 2015.

Regarding its commitment to resettle 240 refugees (through EU Joint and national resettlement programmes), Luxembourg resettled 234 people in total, 182 of whom were resettled from Turkey and Lebanon in 2017.

**UNACCOMPANIED MINORS AND OTHER VULNERABLE GROUPS**

During the year, 50 unaccompanied minors submitted an application for international protection in Luxembourg.

In July 2017, the Council of Government approved the creation of a Commission responsible for determining the best interest of unaccompanied minor applicants for international protection. The Commission will be presided by the Directorate of Immigration. Members of Luxembourg’s Reception and Integration Agency, the National Office for Childhood, and Public Prosecution are also part of the Commission.

4 modifying the amended law of 29 August 2008 on the free movement of people and immigration; the amended law of 28 May 2009 on the Detention Centre; the law of 2 September 2011 regulating the access to the professions of craftsman, merchant, industrialist and certain liberal professions
The ad-hoc administrator representing the child in question will be invited to participate in the meeting.

In addition, the Directorate of Immigration concluded an agreement with the International Organization for Migration (IOM) for a family evaluation process in the context of which IOM will search for the parents of unaccompanied minors in their country of origin.

**INTEGRATION**

With the aim to facilitate the integration of foreigners, including third-country nationals, the Council of Government approved the elaboration of a new multi-annual national action plan on integration in September 2017.

The development and adaptation of the national education offer to accommodate diversity in the school population, played a central role in integration efforts. The introduction of bill n° 7072 into Parliament foresaw the setting up of a mediation service for the National Education system that also deals with issues related to the integration of migrant children, especially to address the language challenges they may face.

As for integration through civic activities, a national information and awareness raising campaign was launched by the Ministry of Family and Integration. Its aim was to motivate the foreign population to register for the electoral roll and to participate in municipal elections held on 8 October 2017.

The Law of 8 March 2017 on the Luxembourgish nationality reduced the required duration of residence for naturalisation from seven to five years, introduced jus soli for the first generation and introduced a simplified way of acquiring nationality by ‘option’, as well as added new provisions to prevent cases of statelessness.

The Law of 8 March 2017 approving the Convention on the Reduction of Statelessness, the European Convention on Nationality and the Council of Europe Convention on the Avoidance of Statelessness in Relation to State Succession also intends to fight statelessness.

In 2017, there were also developments regarding the integration of applicants and beneficiaries of international protection.

In February 2017, Luxembourg’s National Employment Agency (ADEM) set up a cell specifically dedicated to beneficiaries of international protection, to provide employers with information regarding job applications and evaluations of the competences of beneficiaries of international protection.

The Council of Government approved the Guided Integration Trail in March 2017. This multidisciplinary package of measures consists of both a language and a civic component. The package is split into three phases, accompanying applicants and beneficiaries of international protection through the different phases of integration in reception facilities, aiming to both empower and support them in developing their life journey. The participation in the project is compulsory for adult applicants.

**IRREGULAR MIGRATION**

As for measures adopted in view of fighting irregular migration and smuggling activities, the Council of Government adopted a draft bill that introduced modifications with regard to air traffic companies, increasing the financial penalties that may be imposed in case of non-compliance with required document controls and data transmission.

Furthermore, the new agreement between Luxembourg and Cape Verde explicitly mentioned the fight against document fraud and contained an article on the fight against irregular migration and on the readmission of people in an irregular situation.

**RETURN**

The Law of 8 March 2017 amending the Law on the Detention Centre extended the permitted period of detention of adults and families with children from 72 hours to seven days. A draft bill adopted by the Council of Government introduced further modifications. The most significant one concerned minors and the establishment of a Commission to evaluate the best interest of the child on an individual basis when deciding on the return of an unaccompanied minor.

Several references to return to the country of origin were also included in the recent agreement concluded with Cape Verde.

**ACTIONS AGAINST TRAFFICKING IN HUMAN BEINGS**

Regarding victims of human trafficking, the Law of 8 March 2017 strengthening procedural guarantees in penal matters allowed assistance services to accompany victims during interviews with the police to establish their status as victims. Moreover, victims were informed about the kind of support they are entitled to receive and about the actors able to provide them with assistance.

An audio-visual information and awareness-raising campaign on the phenomenon of trafficking in human beings was relaunched in June and July 2017.

**MAXIMISING DEVELOPMENT IMPACT OF MIGRATION AND MOBILITY**

In 2017, Luxembourg was involved in several development activities involving migration and mobility, including significant financial contributions.

One example was the agreement concluded between Luxembourg and Cape Verde, dealing *inter alia* with the development of migrants’ skills and resources.

Luxembourg also signed a new cooperation agreement with Kosovo regarding education and professional training, the Indicative Cooperation Programme IV with Senegal focusing on health and social protection as well as on vocational and technical training and employability, and a Memorandum of Understanding with EUCAP SAHEL Niger for the benefit of the Security and Defence Forces.

**STATISTICAL ANNEX**

The Statistical Annex provides an overview of the latest available statistics for Luxembourg on aspects of migration and international protection (2014-2017), including residence, asylum, unaccompanied minors, irregular migration, return and visas. Where statistics are not yet available, this is indicated in the Annex as “N/A”.
